

## ADA Size and Space Requirements

This chart will help you determine how much text will fit on a sign.

\* 2" minimum lens height for one line of 5/8" text with Braille

Vista Lens Width	Font Size & Character Quantity (Standard ADA Sans Serif Font)			
	5/8"	3/4"	7/8"	1"
5"	6	5	4	4
6"	7	6	5	4
8"	10	9	8	7
8.5"	11	10	9	8
11"	15	13	11	10

### ADA Lettering Requirements:

- All lettering must be UPPERCASE – Minimum 5/8" high.
- Text: Use simple san serif fonts. The use of italic, script or hard to read fonts is not permitted.
- Braille: A 3/8" margin is required on all sides.
- All sizes and spacing are based on typestyles that meet ADA requirements.
- Sample ADA compliant typestyles: Arial, Helvetica, Futura and Myriad Pro.
